JOURNEY RISK MANAGEMENT (JRM) STUDY

Salem Terminal to AATHETYA FUELS

Objective of the JRM Report

This JRM report is designed to ensure compliance with the Central Motor Vehicle Rules, 1989 (CMVR), AIS 140 standards, and the Road Transport Safety Policy (RTSP). It provides a comprehensive risk assessment for the transportation of hazardous materials along specified routes. By integrating these legal frameworks, the report offers a broad strategy for identifying and mitigating route-specific risks.

Regulatory Compliance

The report complies with the Central Motor Vehicles (Eleventh Amendment) Rules, 2022, mandating safe transportation practices for N2 and N3 category vehicles carrying hazardous materials. These rules require detailed route assessments, especially regarding road conditions, speed limits, and risk areas, to ensure safety compliance.

Risk Management Strategy

This report categorizes transportation routes into high-risk and medium-risk areas, with a focus on factors such as sharp turns, accident-prone regions, and elevation changes. The goal is to provide actionable recommendations to minimize these risks, including speed regulations, driver warnings for hazardous zones, and the option of alternate routes.

Compliance with the Road Transport Safety Policy (RTSP)

The report integrates RTSP provisions, including mandatory driving hours, rest periods, and nighttime driving restrictions. It ensures that drivers follow official guidelines, such as taking prescribed rest breaks and avoiding dangerous road conditions like poor visibility, heavy crowds, or high-traffic areas during peak hours.

Emergency Preparedness and Response

The report highlights the significance of predetermined emergency stops for refueling, rest, and overnight stays. It includes protocols for safe responses to road hazards, alternative routes, and rerouting processes if roads are closed or severe weather arises. This aligns with the RTSP emphasis on driver safety and rapid emergency response.

Environmental Considerations

The JRM report addresses environmental risks along the route, ensuring compliance with environmental protection laws in ecologically sensitive zones. It suggests strategies such as identifying areas near water bodies, forests, or populated regions and implementing safety measures to minimize environmental impacts during transport.

Journey Risk Mitigation

The report includes route-specific risk assessments, detailed journey charts, and defensive driving guidelines for each transport route. Integration with vehicle tracking systems guarantees real-time warnings on hazardous areas, speed limits, and mandatory stops, consistent with RTSP and CMVR safety norms.

Compliance with Government Directives

This report fully adheres to governmental directives regarding hazardous material transportation, implementing mandatory speed limits, nighttime driving restrictions, and comprehensive driver briefings and real-time alerts about route-related risks.

Route Summary:
Total Distance: 78.08 km
Estimated Duration: 1.9 hours
Adjusted Duration (Heavy Vehicle): 2.4 hours

Start: (11.4381, 77.8734)
End: (11.964225, 77.940457)

Welcome to the Journey Risk Management Study

Route Overview

The route covers approximately 78.08 kilometers, beginning at CVQF+23W, Sangagiri, and traveling through FR48+7XQ, Bhavani Main Road in Padaiveedu before reaching the destination at Pennagaram Main Road, Arakasanahalli, Tamil Nadu. The journey is typically around 1.93 hours for heavy vehicles with hazardous materials.

Weather Conditions

Typical Conditions:

- **Summer (March - June):** Hot and dry with temperatures ranging from 30°C to 40°C.
- **Monsoon (July - September):** Heavy rainfall leading to slippery roads and possible flooding.
- **Winter (October - February):** Mild with temperatures between 20°C to 25°C.

Potential Hazards:

- **Monsoon** can cause reduced visibility and waterlogged roads.
- **Summer heat** may lead to tire blowouts and vehicle overheating.

Traffic Patterns

Peak Hours:

- **Morning:** 8:00 AM - 10:00 AM
- **Evening:** 5:00 PM - 8:00 PM

Congestion Areas:

- Bhavani Main Road is prone to congestion, particularly around market areas and towns due to high local traffic and narrow roads.

Road Quality and Infrastructure

- **General Condition:** Mixed quality with sections well-maintained and others with potholes and uneven surfaces.
- **Infrastructure:** Adequate signage, moderate width roads, some areas lacking shoulders.

Alternative Routes for Emergencies

- Consider detouring through NH44 if Padaiveedu and surrounding roads are congested or blocked, although it may increase travel distance.

Local Regulations for Hazardous Materials

- Adhere to local transport regulations including obtaining the necessary permits.
- Transport of hazardous materials is typically restricted during peak traffic hours and in school zones.

Historical Incidents

- **Data** on incidents involving heavy vehicles is sparse, but caution is advised in accident-prone areas like narrow village roads.

Environmental Considerations

- **Sensitive Regions:** Close proximity to agricultural lands; spills could lead to soil and water contamination.
- **Wildlife Crossings:** Be cautious near forested areas for animal crossings.

Communication Coverage

- Coverage is generally reliable along the route, but potential dead zones exist in rural and hilly areas.
- Ensure communication devices are fully charged and emergency contacts are on speed dial.

Emergency Response Times

- **Urban Areas:** 15-30 minutes
- **Rural Areas:** 30-60 minutes, depending on terrain and accessibility.

Risk Assessment Summary

- **Overall Risk Level:** Moderate
- **Key Concerns:** Weather conditions in monsoon, road congestion, variable road quality, and environmental impact in case of spills.
- **Recommendation:** Regularly monitor weather forecasts, maintain vehicle safety checks, and establish clear communication lines.

By adhering to the above guidelines and staying informed of route conditions, drivers can mitigate risks associated with transporting hazardous materials along this route.
